**Patients will receive free consultation to assess suitability, treatment must be prescribed.*

Can You Stand The Heat?

This is the time of year most of us love, but there are many who find this a really embarrassing uncomfortable season. Sufferers of the condition 'Hyperhidrosis' find they are less able to hide their symptoms when the sun is out and everyone is dressing accordingly.

Excessive under-arm perspiration can be difficult to hide without cardigans and wearing black or white everyday becomes a bore. There is a solution which after one appointment will leave you completely free to wear whatever to want and forget about perspiration for up to six months. Botox® can be administered into the underarm area by Dr. Ian Dorrington, our qualified clinician to prevent the sweat gland from producing sweat.

This simple solution is performed at the dental practice. As the needle is only inserted just below the surface the discomfort is mild so there is no need for local anaesthetic. It is safe, reliable, and unlike other treatment options it does not lead to increased sweating in any others areas.

Why not take advantage of our summer offer and save £250 on this treatment. Was priced £650 but you can now be perspiration-free and ready to enjoy summer for only £400.

A Day to Remember

Dr Rob Dorrington & Dr Caroline Culshaw have been awarded Membership of the Joint Dental Faculties at the Royal College of Surgeons of England, (MJDF RCS Eng). They recently attended London's Royal College of Surgeons to be presented with their Diplomas.

This prestigious qualification requires a minimum of two years' studying and its status is unrivalled in the dental field so the practice team is very proud of their achievement.

Caroline and Rob celebrated their graduation with their daughters

Forget about perspiration for up to six months

Refurbishment nearing completion

After six months of refurbishment we are delighted to announce that the improvements we have made to our beautiful Victorian villa are finally complete. We hope you agree that the redecoration and building repairs have given the practice a real facelift. We personally feel that the stained glass windows are now a real feature – did you know that the birds featured in the glass are hand-painted? We think they are a lovely original feature of this wonderful building.

Lisa is set to Scale New Heights!

The team is proud to inform our patients that Lisa, Dr Culshaw's nurse, has secured place at Liverpool University to study for a Diploma in Dental Hygiene and Therapy. Unfortunately, this means she will be leaving the practice and although we are all sorry to be losing her everyone is delighted that she will be taking her next step in her dental career.

Lisa came to Inglewood House as a Trainee Dental Nurse having no dental experience at all. It is thanks to her hard work and dedication that she has become such an accomplished nurse and is now ready to train further.

I feel it is only right to apportion some credit to both Steph and Emma, who have helped to train Lisa during her time with us. It is great to see what can be achieved when people work together as a team. The quality of the training we provide at the practice is partly why we won the **'Commitment to Investing in Staff'** award from Bury College last year.

Charges Update

The Government has increased NHS fees as follows, but we wish to make it clear that the practice has not received any increase in our NHS contract value:

Band 1 treatment including examinations and x-rays
£17.00

Band 2 treatment including fillings, extractions and surgical procedures
£47.00

Band 3 treatment which is complex procedures requiring laboratory work.
£204.00

Free Zoom! Teeth Whitening Prize Draw

Dr. Culshaw has increased her surgery hours now that her children are in school so she is able to welcome new private plan members. If you know of anyone who would like to join the practice and you refer them to us you will be entered into our free prize draw to win Zoom! teeth whitening, an in-surgery treatment costing £500. Your friend would receive their first month's plan membership free by way of a credit to their practice account. Please use the 'Refer a Friend' forms available at the Reception to ensure you get entered into the prize draw. New dental care plan membership costs £13.50 a month. Terms and conditions apply, see 'Refer a Friend' form for more details.

Did You Know?

Dr Culshaw is a keen grower of organic fruit and vegetables; this year's harvest includes sweetcorn, spinach, tomatoes, cucumbers, courgettes, beans and peas. As well as growing her own organic produce she enjoys general gardening and always visits the Tatton Flower Show, but this year she has attended the Chelsea Flower Show in an attempt to gather fresh ideas. As we all know, gardening is a life-long learning process, so any advice would be greatly received!

New private patients are most welcome!
